### 4. Final grade (only classes, not lectures – separate final exam)

The final grade is based on the number of pluses gained for the activity during the classes (traditional classes and e-classes). For each e-class (as well as during a traditional class) 2 pluses can be obtained with one exception. Namely, you may obtain 5 pluses for writing the answers to the legal texts presented during the 6th class, which means that 17 pluses in total can still be collected ( $6 \times 2 + 5$ ).

The answers to all the exercises being the part of the 1st, 2nd, 3rd and 4th lesson may be sent to me by an e-mail (or e-mails) until **31.05.2020**. To find the exercises, which have already been submitted, you should refer to my previous e-mails of 12.03, 16.03 and 28.03. The exercises to the 4th lesson will be published with this e-lesson by the end of the next week. Regarding the activities being part of the further lessons (from the 5th to the 7th), detailed information will be given during those classes. Please remember to prepare all the answers on your own.

If you have obtained the pluses during our first, traditional meeting, they obviously still count. What is more, every student, who signed on the attendance list that day, collects 1 “extra” plus.

The final grade will be determined by the number of pluses in the following way:

- 3,0 – 1 plus;
- 3,5 – 2 pluses;
- 4,0 – 4 pluses;
- 4,5 – 6 pluses;
- 5,0 – 8 pluses.
